

While You Wait Joe Pace

While you wait

You might have to stand in the rain

While you waits

There maybe some heartache and pain

While you waiting for your promises

To be fulfilled in your life

Remember God is never late so just praise Him

While you wait, wait

While you wait

your friends may not stand by your side

While you wait

Your eyes may ache from the tears you've cried

While you waiting for your promises

To be fulfilled in your life

Remember God is never late so just praise Him while

God is never late so just praise Him while

God is never late so just praise Him while

You wait, wait, wait
